

ARMC Annual Research Day 2007

May 7-8, 2007

Joanne Van, Jianqiu Pan, M. Arthur Charles, Ronald Krauss, Nathan Wong, Xiaoshan Wu
Atherogenic Lipid Phenotype In Healthy Subjects

Gita Meshri, Guillermo J. Valenzuela
Incidence of Vaginal Lacerations According To Maternal Body Index (BMI) Inpatients With And With Out Episiotomy

Carlo Garibaldi, Cheryl Twu, Guillermo J. Valenzuela
Incidence Of Back Pain During Pregnancy: Effect Of Maternal Obesity

Geana B. Santos
MRSA Infective Endocarditis: A Case Report

Aimee Flemmer, Chahat Thakur, David Lanum
Sexually Transmitted Infection Education Study In Youth

Patricia Kahn, Rodney Borger, Dorian Snyder, Prentice Tom
Utilization Of The Rapid HIV Test In The Emergency Department

Nichole Adair, Guillermo J. Valenzuela
Incidence Of Abnormal Blood Gases Among Patients Undergoing Elective Cesarean Section Without Medical Complications

Amy Basile, David Bailey
A Pediatric Case Of Aquagenic urticaria- Does An Allergy To Water Really Exist?

Jeffrey Haga, Martha Melendez
Vincristine Associated Bowel Necrosis

Hansie Wong, Denise Whitson
Effectiveness Of ARMC "Quit Clinic" For Smoking Cessation

Blake W. Berman, Javed Siddiqi,
The Tapetum: A Poorly Acknowledged, Misunderstood, And Often Neglected Component Of Cerebral Anatomy

Sarika Desai, Joseph Vivian Davis Iii, Appanageri Gnanadev, David Wong
Breast Cancer And Mammography: How Knowledgeable Are Women Of The Recommendations?

Joshua A. Emdur, Benjamin Casillas, Emily Ebert
Identification Of Patient Perceived Barriers To Keeping Primary Care Appointments

Jennie Valcore, Javed Siddiqi
Clinical Neurosurgery Nursing Education In The Intensive Care Unit

K. Yiee; L. Lored; M. Will; D. Bush; J. M. Slater; J. D. Slater.
Proton Beam Irradiation In The Treatment Of Sacral Chordomas

Vu Huynh, Fariborz Lalezarzadeh, Shokry Lawandy; David T. Wong, Victor C. Joe
Abdominal Computed Tomography In The Evaluation Of Acute And Perforated Appendicitis In The Community Setting

Bahar ABiri , J. Vivian Davis III
Maggot Debridement Therapy

Paul Wisniewski, Catherine Ho, J. Vivian Davis III
Fireworks

Blake W. Berman, Dan Miulli
Resident Work Hours

Blake W. Berman, Dan Miulli
Institutional Research

Blake W. Berman, Dan Miulli
Resident Work Hour Minimums

Cherkaleyna A Redder-Haga, Niren Raval
Effect Of Practicing Board Questions On In –Training Exam Scores in Low Scoring Residents

Dennis Cramer, Brian Miller, Javed Siddiqi, Darryl Warner, Silvio Hoshek, Dan Miulli
Preservation Of The Nuchal Ligament –Muscle Complex Following Cervical Laminectomy

Christopher N. Ta, John J. Decaro, Hoai-Ky V. Ho, Lorella Cabaal, Nan Hu, Steven R. Sanislo, Mark S. Blumenkranz,
Darius M. Moshfeghi, Robert Jack, Herminia Mino de Kaspar,
Bacterial Contamination Of Ocular Surface And Needles Inpatients Undergoing Intravitreal Injections

Arash Farahanchi
Colorectal Cancer Screening Methods And The Irrational New Recommendations

Kamelia Kashani
Thromboangiitis obliterans – A Case-Study

Dedes H; Fish D. E; El-Saden, S. E.
Functional Out Come Of Patients With Lumbar Radiculopathy Using Variable Needle Positions And The Relation Of
Contrast Spread During Lumbar Transforaminal Epidural Spinal Injections

Michael Luciano, Kathy Wilson
Fluctuating Asymmetry In Evaluation Of Diabetes Mellitus Type Two, Aggression, And Low Back Pain

Asha Goud, Lisa H. Lowe
Pediatric Parotid Gland Disease

Theodore Caspe
Random Survey On Our Patient's Knowledge Of The IR Medications

Francisco J. Merino, Martha Melendez
Quinine – Induced Immune Thrombocytopenia

Irfan I. Wadiwala
Comprehensive Comparative Analysis Of Gall Bladder Disease Between Males And Females At A Community
Hospital

Francisca Kartono, David Lanum, Edward W. Lee
Looking For Target Signs: MRI Features Of Cerebral Toxoplasmosis

Francisca Kartono, David Lanum, Edward W. Lee
Raising Awareness Of Nephrogenic Systemic Fibrosis

Leon G. Partamian, Paul B. Kouyoumjian, Sandra A. Partamian
Postural Change In Intraocular Pressure In Patients With Glaucoma Versus Severity Of Visual Field Loss

Kamran Syed Akhlaghi, J. Vivian Davis III
Wound Botulism: A Case Report

Nguyen Do, Dennis Cramer, Darryl Warner, Silvio Hoshek, Dan Miulli, Javed Siddiqi
Cauda Equine Syndrome: Correlation Between Timing Of Surgical Decompression And Neurological Outcome

In addition to the above, residents and faculty are currently working on the following projects. If you are interested please contact them.

Women's Health

Incidence of Umbilical Artery pH < 7.0 in Elective C/S at Term in Women Without Medical or Known Fetal Complications- Adair, Nichole
Acute Pancreatitis Complicating Pregnancy: A Six Year Institutional Experience With and Without Episiotomy- Prewitt, Lauren
Quality Improvement and Patient Safety Study of Hysterectomy at a County Institution - Galbraith, Lisa

General Surgery

Diabetic Foot - Nina Bowman
Inguinal Hernia - Tom Walbolt
Effects of Different Pain Medicines on Trauma Patients - Ravi Shah
Indications for Biopsy in Breast Lesions - Jason Tomsic
Comparison of Open and Laproscopic Appendectomy - Austin Nguyen

Neurosurgery

Intraventricular tissue plasminogen in hypertensive basal ganglia hemorrhages - Dennis Cramer
Hypertonic saline vs. mannitol in head injured patients - Jon Taveau
Vertebroplasty in acute lumbar trauma - Gaytri Sonti
Metastatic anaplastic ependymoma - Dan Hutton
Timing for surgical decompression for traumatic spinal cord injury - Nicholas Qandah
Preadministration of 3% NaCl for Prophylactic treatment of Increased intracranial pressure associated with Severe closed head injury/Intracranial Hemorrhage - Elijah Wogu
Pituitary Carcinoma - Caroline Boorman
Cervical Spondylotic Myelopathy - Ripul Panchal
Endoscopy for Tethered Cord - S. Yamada

Family Medicine

Chronic disease (diabetes) and limb length difference - Luciano, Michael
Pediatric obesity and diabetes - Wadhwa, Gurinder
Chronic disease (diabetes) and limb length difference - Wilson, Katherine

Emergency Medicine

Violence in the Emergency Room; a study of physical and verbal abuse experienced by emergentologist in a wide variety of emergency department settings - Snyder
Focuses patient assessment reduces need for ancillary testing in ED - Borger
